# Preliminary accepted curriculum of the MA Programme in Environmental Management in the Arctic

## 1 sem.:

- *Environmental Management. 10 ECTS* (MSTU);
- *Arctic Ecology. 10 ECTS* (including 3 ECTS of Philosophy of Natural Science) (MSHU);
- *Environmental Risk and Reliability. 10 ECTS* (UiT and NArFU as a contributing partner);

## 2 sem.:

- *Technology and Innovation. 5 ECTS* (NArFU);
- *Foreign Language. 5 ECTS* (NArFU will be responsible for teaching Norwegian and MSHU – for teaching Russian);
- *Environmental Monitoring. 5 ECTS* (NArFU);
- *Environmental Auditing. 5 ECTS* (MSTU);
- *Arctic Law. 5 ECTS* (NArFU);
- *International Cooperation. 5 ECTS* (UiT).

# Preliminary accepted curriculum of the MA Programme in Environmental Management in the Arctic

**3 and 4 sem.:**  
Master Thesis. **60 ECTS.**

# АРКТИЧЕСКОЕ ПРАВО

## Arctic Law

### Topics:

1. Introduction into the course "Arctic Law". International law.
2. Environmental law and its fundamental concepts.
3. Indigenous peoples in environmental law: Arctic perspective.
4. Law of the sea in the arctic: continental shelf, fishery.
5. Law of the sea in the arctic: Northern Sea Route, transportation.
6. Concept of biological diversity: legal foundation (Russia and Norway).
7. Summary of the course.

## Arctic Law

**ECTS workload**

5 ECTS

**Lectures/seminars time  
duration**

2 hours / each topic

1 hour / seminar

# АРКТИЧЕСКОЕ ПРАВО

## Arctic Law

### Description of the thematic content of lectures

1. Introduction into the course “Arctic Law” with the delineation of all purposes and aims which were established by the course-makers. Proposals and outcomes of the course. Observation of general aspects of modern international public law: definition, system, legal sources, actors, interplays with domestic law, a role in international relations, relating to the Arctic.
2. Environmental law as the sub-branch of international public law. The concept of “sustainable development” and “environmental justice” in environmental law.
3. The role of indigenous communities in developing legal standards of environmental law. Interaction between international environmental norms and rights of indigenous peoples in the Arctic. Judicial cases.

# АРКТИЧЕСКОЕ ПРАВО

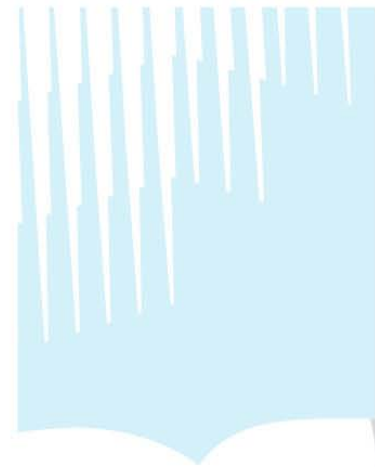

## Arctic Law
